

doc.tex

```
graph LR; A[doc.tex] --> B(LATEX); B --> C[doc.idx]
```

The diagram illustrates a workflow. On the left is a white rectangular box divided horizontally. The top half contains the text 'doc.tex'. An arrow points from the right side of this box to a central rounded rectangular box containing the text 'LATEX'. Another arrow points from the right side of the 'LATEX' box to a gray rectangular box on the right, which is also divided horizontally. The top half of this gray box contains the text 'doc.idx'.
